## EXPERIENCE

### SOFTWARE DEVELOPER APPRENTICE

Learners Guild

Feb 2017-Current

Build full-stack Javascript web applications while pair-programming and working in conjunction with senior engineers using an Agile/Scrum methodology.

#### PROJECTS

##### Timeoff

A Slack bot for logging staff members' PTO. Makes use of the Slack API for getting information about its users and automating a request to the HR portal's PTO page.

##### Roam

A travel website providing traveler reviews of restaurants, hotels and fun activities. Implements authentication, supports CRUD functionality for various models. Uses MVC principles.
